1. The Amendment filed on July 26, 2004 has been entered.
2. Claims 1, 2, and 22-83 are allowed.
3. The following is an examiner's statement of reasons for allowance: the closest prior art Wing (US Patent No. 4,624,155) does not teach the functional limitations recited in "wherein" clause of Applicant's independent claims 1, 45, and 63. See MPEP §§ 2173.05(g) and 2114. In fact, Wing's shear member 40, 45 is *not* capable of being separated from the connector clip 25 and still *maintains the continuous connection from the brake actuation lever 20 to the brake assembly 11, 12* as required by Applicant's independent claims. As best shown in Wing's Figs. 1-3, if Wing's shear member 40, 45 is separated from the clip 25, the front cable strand 23 will be disconnected from the rear cable strands 14 and 15, consequently, there will be no continuous connection from the lever 20 to the brake assembly 11, 12.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Claims 1, 45, and 63 are generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 81-83, directed to the nonelected species are no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim. In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may

Art Unit: 3682

be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.
